Julio Rivas

Software Developer

I am a proactive and solution-oriented software developer. I am proficient in JavaScript, TypeScript, React, Node.js, and Java, and I am passionate about building robust and scalable applications that solve real-world problems. I am seeking an environment where I can contribute my technical expertise and continue to innovate.

Experience

06/2025 - 09/2025

Inncome I Mendoza (Hibrido)

Software Developer Intern (Full Stack)

- Participated in the development of multiple projects, working on both frontend and backend tasks.
- Built and maintained frontend applications using Next.js and TypeScript, with a strong focus on componentization and reusability.
- Implemented advanced React patterns, including creating Custom Hooks for shared logic and managing application state.
- Gained foundational knowledge of backend architecture by analyzing Spring Boot microservices and object-oriented principles like the Strategy Pattern.

02/2025 - 03/2025

No Country I Buenos Aires (Remoto)

Web Developer

Developed a resource management system using React TS, Spring, and MySQL.

- Consumed a REST API to manipulate data.
- Executed the implementation of automated emails for registered users.

04/2023 - 10/2023

Quinto Impacto I Godoy Cruz, Mendoza

Web Developer

Developed a web application to inform and incentivize the use of bicycles as a means of transport.

- Created an Instagram feed using the Meta Developer API.
- Built CRUD (Create, Read, Update, Delete) controllers.
- Implemented a server-side sorting system.
- Utilized the Scrum methodology for efficient project management.

02/2020 - 08/2022

Familia Andrada SAS I Godoy Cruz, Mendoza

Systems Technician

Managed user requests for the maintenance and troubleshooting of technical and administrative issues.

Education

2023 - 2025

University Technician in Programming

Universidad Tecnologica Nacional (UTN)

2022 - 2023

FrontEnd Developer

BootCamp Oracle Alura Latam

2020 - 2021

Full Stack Developer

BootCamp SoyHenry
